

# PUBLIC NOTICE

PNG Ports Corporation Limited (PNGPCL) wishes to inform its valued clients, stakeholders and customers that our Head Office and Motukea Port will remain operational during the 14-day lockdown imposed in Port Moresby.

Given the current situation in Port Moresby and under the guidance of the internal PNGPCL COVID-19 taskforce, in line with the National Pandemic regulations, the management of PNGPCL has decided to continue operations with essential staff.

All our ports will continue to operate in compliance with the imposed measures as per the country's new Niupela Pasin COVID-19 protocols, and under Level 2 of the PNGPCL Business Continuity Plan which calls for Heightened Measures.

## Measures implemented at all ports include:

- mandatory wearing of face masks
- Practicing social distancing
- Keeping hands clean and sanitized
- Compulsory temperature checks of all staff and visiting clients daily across all ports
- Ensuring contactless stevedoring operations

Since the enactment of the first State of Emergency, PNGPCL undertook crucial measures in line with the country's heightened measures at the time, and will continue to do so going forward.

PNGPCL assures the business community and the general public that it will continue to administer and facilitate domestic and international trade through its network of ports in close consultation with the relevant Government frontline agencies and our industry partners.

Ports provide a critical link for the flow of goods into and out of PNG and it is in our intention to ensure that ports remain open during this challenging period.
